

Assessmnet Rubric:

Categories	Below Performance 1	Developing 2	Commendable 3	Exemplary Performance 4
Irregular figure	The figure is too easy to fill with geometric shapes	The figure is easy to fill with geometric shapes	The figure is challenging to fill with geometric shapes	The figure is very challenging to fill with geometric shapes
Regular shapes used	Geometric shapes are not accurate and are not labeled with numbers.	Some geometric shapes are not accurate and they are not labeled with numbers	All of the geometric shapes are accurate and placed properly on the irregular shape but some of them are not labeled.	All of the geometric shapes are accurate and placed on the irregular shape properly and labeled clearly.
Calculations	Most of the calculations of areas of geometric shapes are incorrect or calculations are not included on the poster	Some of the calculations are missing/incorrect	Most of the calculations are correct and clearly demonstrated on the poster	All of the calculations are correct and clearly demonstrated on the poster
Space left	Too much space is left after placing geometric shapes on the irregular shape	Considerable space is left after placing geometric shapes on the irregular shape	A little space is left after placing geometric shapes on the irregular shape	Almost no space is left after placing the geometric shapes on the regular shape
Reflection	Neither process nor results are discussed	Process and results are discussed but they are not clear.	Process and results are discussed clearly	Process and results are discussed clearly and self evaluation is done.
Neatness and organization	Most of the elements are missing or un organized.	Most of the elements are included on the poster but organization is weak	Most of the elements are included on the poster and organized clearly	All of the elements are included on the poster and organized clearly
